Babies look like this:

But most babies in studies about child development look like this:

designed by Freepik from Flaticon

Let's fix that.

they're learning all the time

about words and
numbers and
animals and
people and
navigation and
why we can't lick
the subway floor

even if it doesn't
always look like it

**human infants: we
tickle them
and tell
them
we'll
gobble
up their
toes**

**and they build a pretty reasonable
understanding of the world in a few
years anyway**

amazed by this?
